# NO MORE CHINESE.

The President Signs the Exclusion Bill To-Day.

A Lengthy Message Submitted With His Approval.

The Provisions and Probable Effect of the Bill.

WASHINGTON, Oct, 1.— President Cleveland signed the Chinese Exclusion bill to-

The bill was transmitted to Congress, accompanied by a long message.

The bill, which was introduced in the House by Congressman Scott, forbids the admission of Chinese into this country, whether for business or for the purposes of travel.

It revokes all permits heretofore granted by which Chinese laborers on a visit to their native land are allowed to

The bill was passed both in the House and Senste by substantial majorities, but final action was long delayed by the Senate owing to some doubt as; to whether China had rejected the treaty by which some of the benefits of the treaty were secured.

After the actual passage of the bill by the Senate, Senator Sherman moved its reconsideration, and when that failed endeavored to delay its return to the officers of the House.

The basis for this action was the repeated allegation on the part of the Republicans that the Emperor of China had not rejected

If the bill had gone to the White House at this time President Cleveland would have been in some emparrassment, but on the day the House received the completed bill positive news came of the rejection of the treaty by the Chines: Government.

This has been cited as another instance of " Cleveland luck."

George Bryant Was Detected Just as He Resolved to Steal No More.

Ottinger & Brother, real estate agents at 137 Broadway, have for some time missed small sums of money from their safe, the amount being taken invariably after the safe was locked up and they had gone home for the day.

Inspector Byrnes was notified and Detectives Heidelberg and Dolan suspected George D. Bryant, aged nineteen, of 424 East Seventy-ninth street, a trusted clerk of Ottinger Bros. An investigation of the rob-beries showed that on Sept. 15 a twenty-dollar gold piece was removed from the safe late in the afternoon, and later sums of money varying between \$20 and \$50 were stolen.

money varying between \$20 and \$50 were stolen.

The detectives marked a five-dollar bill with the letter L and left it in the safe. In a few days they saw Bryant anter the Ottinger office about 5.0'clock in the afternoon, and when he returned saw him enter a saloon. Here he called for a drink, paid for it with a five-dollar bill, the marked decoy, and hastily departed. Bryant was arrested and taken to Police Headquarters, where he broke down and confessed. He said he made it a habit to visit the office of his late employers when he knew they had gone home for the day and only an office boy was in attendance.

He said to Detective-Sergeant Mangin: "I, wearied of a life of crime, and had fully made up my mind that I would go there no more after the day I stole the marked five-dellar bill. The last visit was the fatal one which cost me my liberty."

Bryant was taken to the Tombs this morning and was remanded by Justice Kilbreth until to-morrow.

Most of the mourners at the funeral of saac Fink this morning, at 448 East One Hundred and Sixteenth street, knew that his family had been stricken by a double dart from the remorseless hand of Death, Below, in the parlor, the old-time sexton of the Shaara Shemajim congregation on Rivington street lay in his coffin, and the face-cloth was removed from his aged face to allow the relatives to gaze for the last time upon the worn features. The Finks came to this country forty-five years ago, and Isaac and his sister were the only surviving children. They were devotedly attached to each other. Mrs. Marx was sixty years old at the time of her death. But her brother was fourteen years her senior and for some time has been confined to the residence of his son Samuel, a Maiden Iane jeweller, by decrepitude. Old Mrs. Marx would toil across from Brooklyn at intervals for hours of converse with him.

would toil across from Brooklyn at intervals for hours of converse with him.

Last Saturday she traversed the familiar route with a breaking heart, for she came because she had heard her brother was dead. She sat by the old man's corpse, letting her tears roll down upon the placid face. She remained at his residence that night, and sought in sleep nature's comfort to her taxed feelings. She found fuller measure of solace than she had hoped.

An early riser, her not appearing in the family circle the next morning led her relatives to seek her. They found her in bed, her sorrow for her dead brother soothad by that sleep whose only waking shall be on the judgment day. She had died, the doctor said, of rheumatism of the heart. That Threat Written in Blood, "Fig. teen Before I Stop."

INV CARLE TO THE PRESS NEWS ASSOCIATION,

LONDON, Oct. 1 .- A man was arrested at midnight last night on suspicion of having committed the terrible murders in Whitechapel. He is a tall man, with a dark beard. He wore an American slouch hat, by which he was traced from the locality of the last murder, where it is reported he was seen

across the river and far away from the Whitechapel quarter. When arrested he was unable to give any

arrested. The Financial News has offered a reward-of £300 for the capture of the murderer.

Several other suspicious persons have been

Very few additional facts have been obtained. Both murders were discovered about the same time, between 1 and 2 o'clock yesterday morning, and both victims, as in the other three cases, were women of the lowest and most debauched character. The first victim, discovered in a stable yard in Berners street, adjoining a clubroom frequented by Russian Socialists, has been fully identified as that of Elizabeth Stride, or 'Hippy Lip Annie,' as she was more commonly known, a notorious dissolute woman of that neighborhood, who had been seen in the street only a short time

been seen in the street only a short time previous.

Identification was rendered easy in her case because the fiend who had killed her had not resorted to his usual mutilating process, having probably been frightened off by some teen-year-old heiress and daughter of the late
Henry Elias, founder of the Henry Elias
Brewing Company.

This fact led the police at first to believe that the deeds had not been committed by the mysterious criminal, but they have now changed their minds about it. The throat of the victim had been cut from ear to ear with one clean stroke, and instead of disembowelling her the murderer had finished his bloody work by giving her several powerful blows upon the head with a blunt instrument, which left its marks in deep ingread gashes.

the head with a blunt instrument, which left its marks in deep, jagged gashes.

Coroner Baxter, who in the investigation of one of the other murders told the jury that he thought the criminal was an American, has charge of this case, but he is not so free in expressing his opinion as formerly. In fact, he is as much mystified as any of the other authorities.

It was the second murder, however, which was discovered in Mitre Square, only five minutes walk from Berners street, that has filled the people of London with more horror than all the other crimes of the unknown wrotch combined. Such ghastly and sickening mutilation was never seen before, and the policeman who first discovered the body fainted at the horrible sight.

The victim was lying upon her back, with her throat cut from ear to ear, the stroke, in fact, nearly severing the head from the body; the nose and the left car shaved completely off, and the face criss-crossed with gashes from the sharp instrument in a most horrible manner, and completely defying identification.

In addition to this the clothing had been

pulled up to the breast and the same razor-like knife had ripped open the abdomen with two long slashes. The intestines had been torn out by the brutal butcher and some of them twisted about the neck of the victim. them twisted about the neck of the victim. There was blood in every direction.

There was nothing to show in what direction the murderer had retreated, or what manner of being it could be.

No steps have been taken to identify the body, except a general description which the police have issued.

There is hope that a tattoo mark of a figure "4" on her left forearm may lead to her identification.

In addition to this the clothing had been

ure "4" on her left forearm may lead to her identification.

Several vigilance committees have been organized in the Whitechapel district, and the people have resolved that if the police will not protect them they will supply the deficiency themselves.

That the end has not yet come is the universal belief. It will be recalled that when the body of the fourth victim was found in Hamburg street the fiend wrote in blood on the wall: "Fifteen before I surrender." Six lives having been taken nine more will probably be sacrificed before this monster's appetite for blood is appeased—provided the police are not successful in running him down.
